

MOTHER TRUCK

 <p>1 Take a 20 cm x 30 cm piece of shoe sole rubber (about 8 mm thick). Mark out different vehicles - engine, car, jeep and van on it.</p>	 <p>2. Cut these shapes with a sharp knife</p>	 <p>3. Using a shoe maker's punch make two holes of 8 mm diameter near the base of each vehicle.</p>
 <p>4. The finished rubber cars will look like this.</p>	 <p>5. Make several button wheel pairs. Use 1.5 cm long pieces of a ball-pen body as bearings.</p>	 <p>6. These pieces will snap into the holes of the rubber vehicles. You can fix or remove the wheels at will.</p>
 <p>7. You can also fix wheels on the Mother Truck.</p>	 <p>8. Fix the wheels on the vehicles to make them run. Join all the vehicles into a train.</p>
