NUEPA has been involved in strengthening educational management information system for the last more than a decade. Initially the mandate was to develop computerized information system for Primary level of education but confined only to DPEP districts/states. While launching *Sarva Shiksha Abhiyan* not only the scope of DISE was extended to entire elementary level of education but its coverage was also expanded from DPEP districts to the entire country. In 2005-06 all the districts of the country were covered under DISE for the first time. With Right to Education Act in 2009, the Data Capture Format of DISE was further modified in view of the requirements of RTE Act 2009. When *Rashtriya Madhyamik Shiksha Abhiyan* (RMSA) was launched, NUEPA was asked to extend the coverage of DISE from Elementary to the Secondary and Higher Secondary level of education in view of which NUEPA designed and develop on-line software especially for the Secondary level of education and collected data for the first time in 2007-08. Recently, DISE software was re-designed to take care Secondary and Higher Secondary level of education which was launched in a Workshop held at NUEPA (February 4 & 5, 2012) following which all the States & UTs utilised the Unified-DISE software and submitted data along with certificate issued by the State Project Director RMSA. The present publication is the outcome of this exercise.

The *State Report Cards: 2010-11* is based on the data received from as many as 204.2 thousand schools spread over 642 districts across 35 States & UTs. The study of this magnitude cannot be completed without the active involvement and participation of the EMIS professionals at the national and sub-national levels. I am extremely thankful to all the State Project Directors of both SSA and RMSA, the state level EMIS coordinators and district level programmers and data entry operators for supply of data.

Ms Anshu Vaish, Secretary and Ms Vrinda Sarup, Additional Secretary, Department of School Education & Literacy has always been a great source of inspiration. I take this opportunity and thank Ms S. Radha Chauhan, Joint Secretary and Ms C K Deshmukh, Director, Department of School Education & Literacy, Government of India, who played a crucial role in facilitating the implementation of SEMIS in various states.

I am thankful to Prof R Govinda, Vice-Chancellor, NUEPA, for his consistent encouragement and guidance. I take this opportunity and thank NUEPA faculty, especially Prof. S. M. I.A Zaidi and his team for initiating Secondary-EMIS at NUEPA.

The contribution of Mr Naveen Bhatia, Systems Analyst, NUEPA in database management and software development, is gratefully acknowledged.

I am thankful to Mr Rajiv Mehra, Consultant, Technical Support Group (RMSA), Ed. CIL, Ms Shakun Sethi, Mr Rohit Hans, Ms Aparna Mookerjee, Mr Jameel Ali Chisti, Ms Aseela M and Mr Nikhil Oberai for their contribution in strengthening EMIS.

I hope that this publication will be of value to education planners, policy formulators and researchers. We are quite confident that quality of Secondary data will improve in year that follows. Suggestions for improvement are most welcome.

Arun C. Mehta

July 2012

Disclaimer

Raw data presented in the document or used for calculating indicators are essentially based on data provided by the States and UTs through annual data collection (as on 30th September 2010) under RMSA (SEMIS). NUEPA is committed to provide professional and software support to all States and UTs as well as for dissemination and analysis of data as it is provided by the individual States and UTs.

In no way, NUEPA is involved in data collection as such and therefore the accuracy and truthfulness of the data rest with the States/UTs. The State Project Directors have certified that data is free from errors and inconsistencies and hence may be merged into the national database maintained at NUEPA, New Delhi.

One Million+ School Report Cards (www.schoolreportcards.in)

Winner of Manthan Award South Asia 2010

&

e-Governance and eINDIA 2010 National Awards &
EMPI Indian Express Indian Innovation Award, 2012

The National University of Educational Planning and Administration has created a comprehensive database on elementary education in India under one of its most prestigious projects, known as, District Information System for Education (DISE). Off late, MIS for Secondary level of education has also been developed which covers both Secondary and Senior Secondary schools/sections of all the districts of the country. What is more remarkable about DISE/SEMIS is that it has drastically reduced the time-lag in availability of educational statistics which is now down from 7-8 years to less than a year at the national and only a few months at the district and state levels.

The National University has successfully developed School Report Cards of more than 1.3 million schools imparting elementary education and about 204 thousand Secondary and Higher Secondary schools. In addition to quantitative information, the Report Cards also provide qualitative information and a descriptive report about individual schools. And, all that can now be accessed with the click of a mouse. Even school-specific raw data has also been provided online to users.

The Report Cards are produced to provide users comprehensive information on all the vital parameters, be it student, teacher or school related variables, yet concise, accurate information about each school in a standard format which is easy to understand and allows meaningful comparisons to be made among schools. We hope that these reports are used in constructive conversations which lead to improved education for all children across the country.
